

Basic and Advanced Selectors

- Create 2 html documents and link them to the same css: `css/style.css`.

First HTML

- Will have:
 - A nav with 2 links:
 - The 1st one to the current page (or nowhere).
 - the second one to the second HTML.
 - A main content with 3 paragraph. Each one with a span on it.

Second page

[Index](#) | [Second](#)

Name	Link
Main MU page	https://www.mondragon.edu
Intranet	https://intraneta.eps.mondragon.edu/campus/
Moodle	https://moodle.mondragon.edu/
Mozilla MDN	https://developer.mozilla.org/es/
Rachel Andrew's page	https://rachelandrew.co.uk/css/

- ☐ A
- ☐ B
- ☐ C

- Will have:
 - The same nav, but in this case the 2nd will be styled.
 - Table:
 - with thead & tbody.
 - Name and link.
 - List
 - 3 checkboxes

Styling

- All the elements must have:

```
border: 1px solid black;  
padding: 1rem;  
margin: 1rem;
```

- In the navigation, the current page:

```
background-color: black;  
color: white;
```

- All paragraphs:

```
background-color: #cecece;
```

- All spans:

```
background-color: lightblue;  
padding: 0;  
margin: 0;
```

- Some spans and paragraphs:

```
color: red;
```

- All the links that contain `mondragon.edu`:

```
background-color: aquamarine;
```

- All checked checkboxes will have a shadow:

```
box-shadow: 0 0 15px rgba(0,0,0,0.7);
```

- The first characters:

```
font-size: 32px;
```

- Selected content:

```
background-color: yellow;
```
